SUMMARY

Student of Artificial Intelligence and Machine Learning, having a strong interest in building web projects and intelligent systems. Eager to leverage technical skills in a challenging internship or project based role.

SKILLS

Languages	Python, Java, C++(Basic), SQL
Framework	Flask, REST APIs
Database	MySQL, SQLite
Tools	VS Code, Git, GitHub,
AI/ML	Machine Learning, Gen AI, Prompt Engineering, Data Preprocessing
Soft Skills	Problem Solving, Leadership, Team Collaboration, Adaptability, Time Management

PROJECTS

Physio Connect - SaaS

[GitHub](#)

Tech Skill: Python, Flask, SQLite, Front End, API

- * Developed a scalable healthcare web platform connecting patients with physiotherapists.
- * Implemented secure authentication using password hashing and session management

EchoVoice AI

[GitHub](#)

Tech Skill: NLP, n8n, Python, API

- * An AI voice assistant to better listening and writing skills.
- * Build with LLMs and integrated NLP to assist humanly

EDUCATION

Bachelor of Technology in Computer Science and Engineering (AIML)

(2023 - Present)

Noida International University, Greater Noida, UP

Senior Secondary Education

(2023)

St. Thomas Sr. Sec. School, Faridabad, Haryana

CERTIFICATIONS

Google Cloud Career - Gen AI Leader Track

[View Certificate](#)

Google Cloud - Prompt Design in Vertex AI

[View Certificate](#)

ACHIEVEMENTS

Participated in **Model United Nations (MUN)**, strengthening public speaking, negotiation and critical thinking skills.

Official **NIU Volleyball Team Player**, represented college in inter-college tournaments and events, demonstrating teamwork, discipline, and collaboration under pressure.
